Aplicações Mobile

Módulo 2 - OnsenUi

Diogo Menezes

https://github.com/diogolmenezes/CursoMobile/

Introdução

O **OnsenUi** é um framework de UI HTML5 que fornece diversos componentes javascript e classes CSS que facilitam a tarefa de criar uma interface amigável.

Minhas Tarefas

Minhas Tarefas

OnsenUI - Instalação

Você poderá fazer a instalação do componente baixando seus arquivos css e js diretamente do site ou então utilizando o bower.

```
C:\Users\dmenezes\Desktop\Aula 3\js\bower install onsenui
bower onsenui#* cached git://github.com/OnsenUI.git#1.2.2
bower onsenui#* validate 1.2.2 against git://github.com/OnsenUI/OnsenUI.git#*
bower onsenui#* new version for git://github.com/OnsenUI/OnsenUI.git#*
bower onsenui#* resolve git://github.com/OnsenUI/OnsenUI.git#*
bower onsenui#* download https://github.com/OnsenUI/OnsenUI.git#*
bower onsenui#* resolve git://github.com/OnsenUI/OnsenUI.git#*
bower onsenui#* download https://github.com/OnsenUI/OnsenUI/OnsenUI.git#*
```

OnsenUI - Instalação

Em seguida você precisará chamar os arquivos do onsenui em seu projeto e importar o framework diretamente em sua app angular.

```
<link rel="stylesheet" type="text/css" href="js/bower_components/onsenui/build/css/onsen-css-components-blue-theme.css" />
<link rel="stylesheet" type="text/css" href="js/bower_components/onsenui/build/css/onsenui.css" />
<script src="js/bower_components/angular/angular.min.js"></script>
<script src='js/bower_components/onsenui/build/js/onsenui.js'></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></scrip
```

```
var app = angular.module('MinhasTarefas', ['onsen']);
app.controller('TarefasController', function($filter){
```

OnsenUI - Componentes

O onsen possui diversos componentes como por exemplo listas, alerts, navegadores, menus etc.
